

Insu Mun

Product Designer + Front-End Engineer

mis8680@gmail.com | github.com/mis8680 | linkedin.com/in/insu-eric-mun

Profile

Placeholder resume for the portfolio build. This one-page version keeps the public resume link live while the canonical resume is prepared, and reflects current focus areas without inventing employment history.

Focus Areas

- Product direction: shaping ambiguous ideas into clear product narratives and shippable interfaces.
- Systems thinking: creating reusable patterns, interaction rules, and visual structure that scale cleanly.
- Front-end craft: pairing visual polish with motion, responsiveness, and implementation detail.

Current Snapshot

Building a personal portfolio that highlights interaction design, product thinking, and front-end execution. Available for product design, UI engineering, and cross-functional prototyping work.

Tools and Strengths

UI systems, interaction design, responsive front-end implementation, Astro, design-to-code workflows, motion direction, and product storytelling.

Generated as a temporary public resume placeholder for the portfolio CTA on March 6, 2026.
